I have no idea how to do what I am going to ask. Because of the size of the worded 'text' can not be change, I have no idea how to do it, I'm not very good at css. If the page is too small the divs go up and down. I want all to go down in the middle and stay there. jsfiddle .container { width:100%; margin-top:20px; height:500px; display:inline-block; } .text { text-align:center; } A: You might need to use absolute positioning on that div. I'm not sure what "can't be change" means - I'm assuming you just don't want the div to resize?
