Oxidation of the antinociceptive and antidiaphoretic properties of 3-methoxydibenzo[a,d]cycloheptenopyridin-2-one (LY 85435) by peroxide. LY 85435, a novel anti-inflammatory agent, is a benzylamine derivative of an analgesic and antipyretic compound, which also antagonizes prostaglandin synthesis and raises cyclic AMP levels. The oxidation of the central part of the molecule resulted in a loss of its analgesic and antipyretic properties and the appearance of a compound, whose arachidonate-containing phospholipids are more fluid than the natural product. super excited to share with you all what I will be making on this blog for the next 5 weeks, since I am moving away from The Colorful Kitchen and will no longer be posting there. For the next 5 weeks, I will be posting recipes based on the 5 colors of the rainbow. I decided to start with the color orange since I love it so much. My first entry for color orange will be Moroccan Orange Chicken with Tangerine Jam. This dish is so delicious and versatile. We often eat it for a quick and light dinner with Basmati Rice. For a special occasion, I serve it with salad and crusty bread. Here are the ingredients and the step-by-step pictures for how to make this fantastic dish. Ingredients 1 whole chicken, cut into 8 pieces (more or

Condos: The Future Ain't What It Used to Be While I'm always happy to see prices for Dallas condos and apartments rise, the prices are rising in Dallas and around the country because of a lack of inventory and a stagnant real estate market. The national real estate market is still slow and the local market is struggling. I would expect that the Dallas market should keep showing similar growth. The current low interest rates could continue for the next year or two, but that's the strong evidence that the national economy is sluggish. Once the economy picks up, the demand for condos and apartments should become even stronger. I think Dallas should have a healthy economy in 2011 and 2012 and the prices of
