### Free 3GP Video Converter By Topviewsoft With Registration Code [Win/Mac]

Free 3GP Video Converter is a program with a self-explanatory title - it allows you to convert video files from various formats (including AVI, ASF, WMV, FLV and MOV) to the 3GPP or 3G2 extension, supported by mobile phones. The interface of the application is clean and intuitive. Videos can be imported into the list via the file browser only, since the "drag and drop" method is not supported. Batch conversion is possible. So, all you have to do is specify the output destination and extension, and proceed with the encoding process. In addition, you can configure audio and video settings when it comes to the codec, resolution, bit rate, quality, frame rate, zoom mode, sample frequency rate and channels. The video conversion tool runs on a very high amount of CPU and moderate system memory (other applications clearly run slower when Free 3GP Video Converter is open). But it manages to quickly finish an encoding job and to keep a pretty good image and sound quality. All in all, Free 3GP Video Converter is a pretty good software for encoding clips. But it eats a lot of system resources. Nevertheless, we suggest you test it for yourself to see if it matches your preferences. ## What's New in the Free 3GP Video Converter By Topviewsoft?

Show All... by Topviewsoft 6.8 Free is a self-explanatory application, and it just did what it was supposed to do: convert video files to the 3GPP or 3G2 extension. So, you can make video files compatible with the 3GPP format (3GPP) on mobile phones and synchronize them with one or more of the many available video players (in this case, we used the video player on the Nokia N95 8GB). As you can see in the pictures, Free 3GP Video Converter allows you to configure several video settings. You can choose the codec (video encoding type), bit rate and quality of the video file. The interface of the application is clean and intuitive. You can import clips by browsing the file system (or you can drag and drop video files onto the list of available videos to be converted). Note that the speed of encoding is also not an issue with Free 3GP Video Converter, as in case of other similar programs. In fact, it can do a good job with dozens of video files. Thus, we can be certain that it won't slow down your computer.
