

April 18, 2015 - Regedit set to en-US, game still in Chinese! ... to/3dmgame-grand-theft-auto-v-update -1-and-crack-v2-3dm-7z-t10513028.html#main and now ..... Regedit, possibly because that I didn't make any changes. So it's not because of the files I sent back. I don't even know how to answer this question because I can't fix it anyway. I couldn't upload any files to Steam as Steam said the file was not found, which is probably because my version of Steam can't find it. So I have no idea why this is happening or where it is happening. I'm just getting an error and can't load the game.
