Martin 039;s Luhn-checked Number Generator For Windows [April-2022]

1d6a3396d6

Martin's Luhn-checked Number Generator is developed with the help of the Java programming language and can run on a variety of platforms. Generate random numbers and test them for compliance with the Luhn check. In compliance with the Luhn check, values should satisfy the following rule: totality-of-digits must add up to the value of the generated number. The example below shows a valid number for the Luhn check: "3668927" which is composed of the digits "1" (10), "8" (100), "6" (600) and "9" (900) - Random number generator with the length of the random number that you want to generate, a range and with the Luhn check. - Generate the random number. - Evaluate the number according to the Luhn check. Limitations and features: - Sample rate: - The number of random numbers generated per second can be varied with the 'Sample Rate' parameter - Luhn check: - Luhn check which is used to check the random numbers for compliance with the Luhn check. - Select the type of Luhn check: - Luhn check type: - The Luhn check is a simple check which is made up of ten digits. - The Luhn check is a more difficult check which is made up of ten digits. - Luhn check with format: - A more difficult check which is made up of 10 digits. - Luhn check with modulus: - A more difficult check which is made up of 10 digits. - Luhn check with multiplication factor: - A more difficult check which is made up of 10 digits. - Luhn check with division: - A more difficult check which is made up of 10 digits. Related pages: - Explanation of the Luhn check, Luhn check formula and Luhn check documentation. - More information about the Luhn check. - How to use this application. Files: - luhn-checked-number-generator.jar: The source code of the application. - luhn-checked-number-generator.jar.md5: MD5 checksum of the source code. - luhn-checked-number-generator.jar.sha1: SHA1 checksum of the source code. - luhn-checked-number-generator.jar.zip: The application archive which can be executed on a variety of operating systems. Contact: - If you have any questions regarding this application, you can contact the author at: - You can also get in touch with the author at the following address: - If you are interested in bugs or programming errors, please read the following page: - If you are interested in the licence terms of the application, you can

---

**System Requirements:**

**Minimum:** OS: Windows Vista/XP/2000/2003/7/8/10 (64-bit) CPU: Intel Core 2 Duo or AMD Athlon 64 X2 4400+ RAM: 2GB DirectX: Version 9.0  
**Recommended:** CPU: Intel Core i7-2600 @ 3.4 GHz
