## PCMesh Internet And Disk Cleanup Crack For PC

PCMesh Internet And Disk Cleanup Product Key is an award-winning program developed to delete Internet tracks left behind by your computer. The program removes cache and cookies from your Internet browser, and also delete useless files such as duplicate files, index.dat files, mail attachments and copies of downloaded programs and files. PCMesh Internet And Disk Cleanup Cracked Version can be used to remove all traces of Internet activity and ensure the privacy of your private information, and delete things such as browser history, temporary internet files, typed URLs and Internet Explorer tools. The Cleanup utility has a Delete Index.dat and Compact and Optimize option. You can delete files such as downloaded files, mail attachments, the cookies, temporary internet files and index.dat files. You can also start the index.dat file deletion by entering a size in KB or MB. After starting the index.dat file deletion, Cleanup automatically removes it and saves a log of the complete removal process. PCMesh Internet And Disk Cleanup can be used to completely remove traces of your Internet browser activities and tools, as well as program installation logs. You can completely erase the cookies, cache and history, typed URLs and Internet Explorer plugins from your computer. In addition, the program allows you to customize the Cleanup options, exclude or include some items to be removed, change settings, log the removal and view the log file. The program allows you to delete temporary internet files from your computer. The program also allows you to delete duplicate files, as well as mail attachments. Moreover, Cleanup can be used to remove the index.dat files that are associated with the installation of your anti-virus programs. Removes automatic login information from a site. Clears browser cache. Clears cookies. Deletes temporary internet files. Deletes search terms. Deletes all types of temporary files. Recovers deleted internet files. Removes the index.dat file. Remove unsaved passwords. Quit all programs. Click 'Add' to remove an internet site from the list. 'Delete' to remove the site completely. The program has a 'Delete Index.dat and Compact and Optimize' option. With this option, you can select to compact the index.dat file, remove all traces of Internet activity, delete the temporary internet files, mail attachments and cookies. The program allows you to remove the index.dat files, and you can delete both temporary and permanent Internet files. Key Features of PCMesh Internet
