Car Crush Racing Simulator is a 1 vs 1 full-auto racing game where you have to skillfully dodge all the state of art Car Crushing Machines and reach the finish line before everyone else. This adrenaline-pumping extreme sports game will have you at the edge of your seat. Get lots of airtime by driving over cool bumps and ramps performing some astounding stunts. Keeping your vehicle safe is extremely important as you try to keep out of harm's way in a high-intensity obstacle environment. Beware that you have to be extremely careful and stop just at the right place. Right then, it's time to test your reaction time and have some real fun. Fun Racing Game Features: - Simple controls - Highly immersive game experience - Addictive game play - Boost your vehicle for more speed and weight - Amazing spectacular locations - Thrilling tracks, where road crushes, jumps, and stunts come together - Unique events, including oil spills, lava, snow, and much more - Stunning music and achievements. The main goal of the game is to go through as many levels as you can, collecting all the points as you go. There will be tons of exciting obstacles to be avoided, such as screwing with your opponent while picking up speed at any place possible. However, those obstacles can cause some damage to your car as well. Your car might get stuck in certain spots or you might bump into some obstacles that you didn't see at all. The higher your score, the better chance you have to win the game. Make some incredible jumps as you race your way through obstacles to victory! Are you a true car racing fan and like seeing Hollywood movies? The game with "Car Crash" tagline is something you could definitely get addicted to! In this car racing action-packed car crushing game, the world is upside down and the cars are crashing to the ground! Have you ever thought about how the car bumpers would act like when you drive through them? Well, this game is going to help you experience exactly that! There will be almost 1,600 different obstacles you have to pass through to win the game and collect the points for a higher score! Be careful not to crash into them or else you'll lose all of your precious energy which you can use to do an awesome stunt! The obstacles will cause damage to your car so be careful not to miss them. 16 - Publication Required What is Streamfly Streamfly is a free service that enables you to upload your video at anytime, anywhere. Your videos will be uploaded and made available on all your devices through the Streamfly app in your android device and from your website. Unlike online streaming sites like YouTube, our app requires zero registration (developers only!) and no stream files (even though you can use your own files). For less technical folks, the Streamfly app is simple, it's only 3 steps to enable your stream on Streamfly: Pick a unique channel name. Upload your videos to Streamfly. Download Streamfly app. How Does the Builder - Artifact DLC Pack work? You will only need to download Streamfly once to access your videos. Once your videos are uploaded on Streamfly, you can direct your stream to your website, YouTube, Twitch, Facebook, etc. Note: this works best if you have a secondary streaming device and a laptop. Many people prefer this setup, especially if you stream video games. What do I need to stream on Streamfly? Your stream will automatically be stored on Streamfly's servers and you will have a unique URL. The videos will get uploaded to your mobile device and transferred to your device where the Streamfly app is. All you need is to direct your stream from your streaming device on to your website and the videos will be streamed from there. In addition to your Streamfly Username (your unique URL), you will also need a unique URL which will be used to link to your Streamfly. Any combination of your name, your chat name, or your livestream website should be fine. Some examples are: sherpderp (Username) sherpderp_hlz (Username) sherpderp (Livestream Website URL) Note: if you do not have a unique URL, you can create one for free at Streamfly. Step 1: Create a Streamfly Username (A chat name is not needed) Step 2: Upload your videos to Streamfly The Upload your videos to Streamfly section explains how to upload your videos. Note that for the quickest solution, this process only requires your Android device. Make sure to download the Streamfly app and install it on your mobile device. Step 3: Direct your stream to your website, YouTube, Twitch,
