"*Propinsi*" suggests that the drug be administered sublingually or intra-oral. When performing the oral administrations, one must be careful not to touch the tongue, or to touch any other parts of the mouth, lips, or gums with the needle. If the oral administration is given to the tongue, then the needle should be directed into the lingual region to avoid damage to the tongue. In some patients the damage to the tongue may be severe so other delivery methods should be
