The scripting language is used for scripting (mainly for automation) of AutoCAD Product Key, mainly its application program interface (API) and for writing plug-ins. AutoLISP is an example of an implementation of AutoCAD Cracked Version's scripting language. The AutoCAD.NET API is another language for writing and managing plug-ins. A good example of a plug-in is the Scenic plug-in. Because Autodesk owns the Autodesk Exchange Apps store, a number of Autodesk-owned apps and plugins are available for free to non-commercial and commercial use.
