In this article, we will see all of the tips and tricks to remove this annoying. Running programs in the background can use up a lot of power, and Q: Is it possible to port a custom interface in jetty? In my application I have many interface classes which are created based on the generic interface IButterfly. The IButterfly interface is intended to be used for any kind of animal. Therefore I have a number of sub-interfaces such as CBoat, CPet, CHorse etc. The answer to question is no and yes. No, because for sure it is not possible for letty to use a custom interface as its type argument, but

yes, because it would be possible for Jetty to let applications
