Is Tom Brady a coward? A week ago, he was. The New England Patriots quarterback admitted that he would take a knee during the national anthem during a Fox News interview. "I am not a protestor," he said. "I am not trying to disrespect the men and women who have made the ultimate sacrifice to protect our liberties. We honor our flag and our veterans by not disrespecting those who have fought so hard to protect ours." Even though owner Robert Kraft and about 100 other Patriots players participated in a silent protest during last Sunday's game against the Jacksonville Jaguars, Brady was the only Patriots quarterback that refused to take a knee during the national anthem. "I think it was a very respectful, innocent opinion that he expressed," Kraft said on "Fox & Friends" Monday. "He wanted to share his view. He's our quarterback. I'll back him up," Kraft said. Brady is widely beloved in New England. Kraft's wife, Myra, ran for mayor against Linda McMahon in 2009. Kraft is a millionaire Republican donor, but he and his wife stood with Goodell in 2005 when the commissioner began calling for a salary cap for the NFL. The only reason Brady is disliked by some fans is because he won four Super Bowls in five years with the Patriots. He is the only starting quarterback to win four consecutive Super Bowls. His detractors are quick to complain when he expresses an opinion that goes contrary to the narrative that they have created of him as a heartless chiseling robot who feasts on his opponents and dumps

I've been arguing about this case forever, and it's beyond time that I present my opinion to you the reader. This is the relative status of all Stones in the Deadlands Reloaded campaign setting. They are listed in order from low to high magic cost. They also are listed in order from low cost to high cost, and in order of increasing use. Here is what every single Stones can do:

Save for good Will: With a complex mental process beyond the scope of this article, a Soulstone focuses and then transmutes your will power into a pure, concentrated force

Cure: Can remove one minor injury or illness (usually a flesh injury if you move in the regular world)

Regenerate: Regenerate 1 HP per level upon recasting a stone to remove an injury for instance. The damage is still carried by the corpse. Be careful with this, this is a solid stone

The Legendary Stones will be legendary? That doesn't seem right. Let's be more precise. Here is the Legendary Stones, with a percentage chance to succeed on an action and how it would work:

Soulstone: Pretty much the same as the normal stone. With an added bonus of 90% hit on Will saves. This is the lowest cost stone, but it comes with a ton of other bonuses.

Stone of Wonder: This stone is made specifically for elemental users. You can turn on a ray of destructive or constructive energy, which you can shape into a ray of Force. The enhancement is that if you are using the stone,
