## **What's new:**

**Saturday, February 21, 2015 The title of this mod says all - this works as dungeon ("dungeon" is the word I'd use for mods that include many, more or less, levels). When you're in those dungeons, you are a (level 1-30) gruff mountain man, searching for treasure with which to construct a decent house. You must also deal with evil beings that try to do evil things to you. This mod is not rolling a 10-man dungeon over several levels, or**

---

**something like that. Instead, you'll find yourself in several, distributed caves running through hills, and I have made one of those caves into a multi-leveled dungeon. The dungeon contains roughly a dozen caves. Each level will start with less than 1x1 dungeon space. This means it's already hard enough to find your way through. There are steps to climbing the stairs, not to mention there's all the gaudy junk to fall over. In a multi-dungeon mod, you shouldn't have to climb up/down stairs before descending/ascending. In this case, the very first cave/level is a bit hard to even get into, because lots of creatures attack you. By this point in the dungeon, it may be advisable to do some saves. You will be happy to find a secret passageway - do NOT let the open door trap you in there (it does, but it's easy to escape), since it leads to a dungeon within a dungeon. Sunday, January 13, 2015 I am officially announcing this mod. It is still in testing, but it should be released in near future. This mod has nothing to do with Romance of the Three Kingdoms, as far as I know. In my previous mod, the Naga Slimes had a new dungeon - the Hall of Churning. This mod also introduces a difficulty level. In Classic Mode, this mod will be a simple dungeon where you can rescue 3 sisters. The difficulty level of this mod is called Classic. In Master Mode, it will be a harder dungeon, the goal of which is to rescue each of the 4 sisters. It will be a 10-stage modified version of the original "Hall of Churning". In Queen Mode, it will be a mix of**

**Classic Mode and Master Mode, with a later Queen stage. The Queen stage will have extra difficulties, and follow the same structure as Queen Mode. Finally, there is a secret stage - which**
