Features Key:

Stunning Graphics : Despite falling back to a retro visual style, the graphics in the game features a sweeping field of sharp, vivid colors and vivid character design.

True Battle System : Defeat your enemies through a combination of playing in stages with a party and fighting against monsters that roam the Lands Between.

Customization : Personalize your character with his or her appearance, spells, and skills to create your own unique character.

Detail Oriented Battle System : Using a tight-knit combination of auto-battle and AB system controls, players can fight efficiently and combat situations fluidly.

Advanced Jobs : Be an assassin, a mage, or a swordsman. All jobs have been streamlined to ensure the player always has the right tools at the right time in all situations.

Multiple Tag System : Easy to introduce friends and players of other gaming platforms to your gaming community. Not to mention the official website site has made it possible to connect to other sites in the global community!

Custom Creation Palace : Create your own castle and your dwelling place to live through your adventures. Your castle will increase in size as the number of comrades in your team rises.

Location Hunt: Play a part in a world in which the person who is in your party will be guided to the Heroes of the Ring location to find your sought-after treasure

MMO Ideal: Players play in mass battles with the others, but create their own personal game with the tactics of Dx2G!

Combat Assistance: Show your party the status of battles with voice cries, and check out maps and stats with the party or characters with puzzle games or point systems. You don't have to worry about coordinating the party or characters for drops!

Layered World : Craft the beauty of traveling with a vast world separated into various areas that store excellent dungeons.

Post-Game Quest : Defeating bosses throughout your journey along the way will unlock a huge quest, Dungeon Hunt.
