You've lost gold on the train, and the only way you'll get it back is to find the alien who stole it in space. The only problem is, they're zipping around in some kind of rocket ship and running all over the place! To chase them, you'll need to capture that ship with a magnet; the only problem is it runs on coal and steam! It'll take you on a journey across a dozen stages from home on the range to the final frontier. But for you to have a chance, you'll need to use all your wits to solve puzzles using a dozen different mechanics, including using a magnet to pull a wagon, turning a turntable around a fan, flicking switches, and more! Features : +Solve dozens of puzzles in detail. +Watch as a silly story of loss, vengeance, and unidentified flying objects unfolds. +Control a locomotive in a vivid cartoon world. +Travel from the pinnacle of power, with your friend's wagon, to the depths of a coalmine. +Lead our partners and family through a deep and engaging game. Neurodeck, a roleplaying survival game, puts you in a mysterious world of the future, where you must fight for your life and the freedom you value. Play as a human or as a mindbot, face a dangerous new world and uncover the secrets of the past, in a non-linear narrative where your decisions will have dramatic consequences. Overcome challenges, interact with your surroundings, decipher the strange scenes you'll encounter, and uncover the truth. STORY Neurodeck is the story of a society that has been put under the complete control of some unknown entity, isolated and forgotten. Now, 3 years after the events that put the system in place, its subjects live under a strict control, but nobody knows what happened before the security system. Mankind is now divided into two factions: The Human (or System) consists of Mindbots (Algorithmic Entities), plants and robots that the System has employed to perform all necessary actions for the society. The Core is a mysterious entity, hidden inside a robotic body. The plot is filled with mysteries, twists and epic encounters. Why would somebody install a security system in a perfectly sound place? Who are the Core? What are they looking for? How did the society stop being so happy? And so on... One thing is for sure: nothing is as it seems. EcosystemNeurodeck is built upon a complex ecosystem, composed of 3 distinctive elements:AI (Algorithmic Entity), Mindbot (Algorithmic Entity) and lifeforms (Plants). You will have to deal with

**What's new:**

**! Summer is one of the most enjoyable times of the year. And each summer, we're able to explore new quests, areas, etc, and I wanted to take a moment to talk to you, the community, about one of the newest additions to the Summer 2017 Season. Summer is for Play You've been asking about what's going on in the Summer 2017 event. I think you'll be pleasantly surprised when you see the content coming your way. For your first clue of this added content, you've already seen evidence of it on the new dailies, the PvP rifts, login rewards and the addition of a signature Epic quest, which I'll talk about in a bit. But there is much more you can look forward to with Summer, and I can't wait to tell you. For one, you'll be able to explore new features within the Armory, especially given the buffs to the Stances system. You'll find new objects that will grant small buffs or even have additional effects on certain items. Additionally, you'll see the return of flags to the Summer event. I'm very excited to see how you utilize them. You'll also unlock more Crypt of the Ancients content if you log in for the entire Summer event. And as if that weren't enough, for those of you who join us from Summer 2017, we'll be giving you your first Free Reputation boost, which will award you a couple additional Greater Rift boss slayer chests. Lastly, throughout the Summer, I'll be opening up PvP rifts on a weekly basis, to give you an extended taste of some of the new PvP game features that are coming. I'm very excited to see what you do with them. The Signature Epic Quest The Paladin is not just a class of fighting for good. The Paladin is the guardian and defender of the weak. Thus, we see the Paladin included in several of the Knights of the Fallen Empire storyline. You can see the Knights of the Fallen Empire Comic with your own eyes and decide for yourself. In addition, Knights of the Fallen Empire had elements from old story lines which we don't yet have time to cover because it simply didn't make sense to do so in the current timeline, which is why a lot of these stories aren't new.**
