"I can assure you, I'm not a gamer, I'm just an athlete," said Guardiola. "When we came up with the idea for this invention, we really didn't know if it was going to work or not. But, when we started, we felt that in this moment, when we have to play a football match, we don't know what will happen. We don't know where the ball will go. We don't know how our opponents will react. We don't know anything. It was like this: you are alone, you are playing, you are in the pitch, you are standing against your opponent, you don't know what is going to happen. We were more used to this situation than in the office. It was a more complete situation. It allowed us to test it in a more complete way." FIFA 22 introduces "HyperMotion Technology" that uses motion capture data collected from real-life players playing a complete, high-intensity football match in motion capture suits. The data collected from player movements, tackles, aerial duels and on-ball actions is used to power FIFA 22 gameplay.

The court will be playing in the second stage of the Champions League final on Saturday. With two minutes left of the first half, Coutinho accelerated with the ball inside the area, shifted his right foot to the left side, and scored a thunderous angled shot into the roof of the net, leveling the score at 1-1. Barcelona defender Gerard Pique, who had recovered to defend the opposition's counterattack, couldn't

What's new in Fifa 22:

- **FIFA 22 brings in an upgraded 3-2-1 formation system. Previously, the formation was a simple 2-2-2 with your goalkeepers in front. This time, each of your attackers is assigned to one of four locations in the formation. Using the skills button, you'll be able to bring in one other attacker from that formation. Let's say you're on the left side of the field, but the attack is very disorganised. The skills button activates the Formation Specific Ability - Indoor Passing and drills down until you find the one that suits your needs.**
- **The prospect of playing a 1-2-1-2 with a striker has got a lot of people excited. With the the rise in popularity of streaming, using subtle footballing formations has become a lot more important. Playing defensively means you can keep organised and use a lot of silky passes. If you decide to go attacking, it just means that you have to be patient and think ahead.**
- **You now have to have a compatible defence and attack**

combination before a skill can activate. It's a very old and simple concept, and actually a lot more complicated to implement than people might think. To start with, you have to have a goalkeeper with a good passing range and vision. Next up, you have the defenders, strikers, and full-backs. After that, you have to have your defenders and strikers in exactly the correct positions and being able to communicate together with each other.

- **FIFA 22 will support up to 6 players in FIFA Ultimate Team.**
- **FIFA Ultimate Team now features the new Seasons gameplay mechanic, which has you build a squad over multiple seasons. Every time you increase the number of players in your squad, you'll see a badge in the player screens and stats of those players improve across the season. You'll have to work your players hard in your Ultimate Team, but will you be able to keep them? Playing Seasons in FIFA Ultimate Team will also lead to longer, more intense training sessions, as you'll be playing more frequently.**
- **You'll earn more experience playing Seasons in FIFA Ultimate Team, and you'll also earn more points if you win in Seasons.**
- **Disabled players will become disabled again. You won't be able**
