A: Assuming I understand you correctly, here's my solution: // get the numbers from inside the tag var firstNumber = \$('p').eq(0).html().match(/d+/g)[0]; var secondNumber = \$('p').eq(1).html().match(/d+/g)[0]; // convert to degrees and miles var degrees = (firstNumber * 9/5) + (secondNumber * 1.8); // show the degrees \$('p').eq(1).html(degrees + " degrees"); // reverse the degrees degrees = Math.floor(degrees * -1); // turn it into miles and back to degrees var miles = parseInt(degrees / 100) * 1609; degrees = ((miles + 459) / 10) * 5/9 - 459; // show the degrees in the tag again \$('p').eq(1).html(degrees + " degrees");

Second, Turiaf's failure to report the offense was based on his having been advised by his lawyer to give a false explanation for his behavior. Third, in 1993, Turiaf had cooperated with the government in providing information on a drug conspiracy. Finally, the PRB does not argue that Turiaf failed to receive credit for time served. Thus, Turiaf has met the conditions for a reduced sentence under § 3582(c)(2). We are not persuaded by the government's argument that Turiaf's counsel misled him. Although counsel did not tell him the truth at the time of sentencing, he may have later advised Turiaf that doing so was unnecessary. There is no evidence that the government did

A ghost from the past? A few years ago, filmmaker J.J. Abrams made a show of his intent to avoid doing the same movie over and over again. He solved the problem by creating a whole new, successful TV show from a previous failed film property. Then, this summer, it looks like Abrams is returning to his first film, a 1990s-era comedy based on a real drama from 1978. Deadline broke the news

that Warner Bros. has plans to relaunch the TriStar feature disaster film *The Fraternity*, which starred Tom Hanks and was directed by Randal Kleiser. Deadline says the studio and Abrams, who is attached to direct, are looking for a \$15 million budget. *The Fraternity* was released in late 1991 and was a critical and commercial flop, although its commercial success would lead to a 1991 sequel. It starred Hanks as a newlywed who gets involved in a fratricidal shooting by getting caught in the middle of an argument. There's a spin-off TV series from the film (Tom Hanks is in it!) and a bestselling book on college culture from the era. The story has been optioned before, even making it to the screen in a 1995 British TV movie (below, with Hanks). It makes sense that Abrams would want to pull some of his previous film re-jiggering skills, and re-open this previously closed brand, as he did with *Lost*. But what
