Roblox is an online game platform and game creation system developed by Roblox Corporation that allows users to program games and play games created by other users. Created by David Baszucki and Erik Cassel in 2004 and released in 2006, the platform hosts user-created games of multiple genres coded in the programming language Lua. For most of Roblox's history, it was relatively small, both as a platform and a company. Roblox began to grow rapidly in the second half of the 2010s, and this growth has been accelerated by the COVID-19 pandemic. Roblox is free to play, with in-game purchases available through a virtual currency called Robux. As of August 2020, Roblox had over 164 million monthly active users, including more than half of all American children under 16. Although Roblox has received generally positive reviews from critics, it has faced criticism for its moderation, microtransactions, and exploitative practices directed toward children. Or can someone offer a free Robux Generator but without hacking your account? A: If you're talking about a reputable website that offers free robux generator that doesn't hack into your account, then yes it's possible to get free robux. The free robux generators are basically one of three things. 1 - Free robux hack that tell you how to enter a free robux generator that just asks you to enter a code or a secret word and give you what you entered. 2 - Free robux generator that won't actually give you free robux but you can use them to buy stuff on the market. You'd have to buy robux to use the generator and then you can buy stuff on the market by giving the robux you bought to the generator. 3 - Free robux generator that use bots to do the robux "mining" for you. They set up a bot program that randomly goes through all new games and records what robux they obtain. The bot generates a record of what's called robux"rewards" and then they sell them to you for real robux. Using these free robux generators is like every other option on the internet for money in the games, mainly gambling. The system will continue to trick you until you stop playing the games or until you lose all your money. It's a scam and you shouldn't trust these websites or enter your personal information into them. Using free robux generators is against the Roblox Terms of Service and they will ban your account. For more information on how these free robux sites work, check out this video on youtube.
