Bash and Kiln-A-Dish Synopsis At the beginning of every month I hold a small event where forum members share their impressions of the past games with me. This time I received quite a few reviews from you about "Demon King Scorch. Bash and Kiln-A-Dish". From these reviews, I have selected the quotes that I found most interesting. I will try to publish these quotes as a short review. If I missed a point, you can find out about it below. So, what is the main idea of the article? Why is it important? Well, it's not just a story about how to do business on blockchain, how to invest properly, which cryptocurrency is better. No. Rather, it's a story about how a person, with the help of his mind and diligence and through his knowledge, comes to success. Of course, if he has the help of smart smart people whom he trusts. This story is not for everyone. But I hope that those who read it will learn some lessons for themselves. Although I do not like to write long posts, this case is so vivid that I did not want to hide it from you :) So, the story happened to me a couple of years ago, but I think maybe even now some of you find yourselves in similar situations. I am a mom of two beautiful daughters, the oldest is 4 years old and the youngest is 7 months old. And then the youngest one had a disaster last week from which even I, an experienced person, could not recover at once. I will tell you. After the holidays I decided to take the baby for an hour in the park. So what if I'm already on maternity leave, but I'm a mom. So when I arrived, I asked my son to sit on the slide while I walk with my daughter. He agreed, but on the condition that he would be off to the side where there were no children. And I'm two meters away, if anything shouted to him. So I did. I'm sitting with my daughter, and my son is standing to the side. And then my daughter rolls down the slide. And I was shocked, but by inertia managed to shout to my son that he ran to his daughter. And he ran.
